CAPTIONING SYSTEM TO BE EVALUATED

The Teledyne Goetech Laboratories are developing a real-time television captioning system under contract with the U.S. Department of Health, Education and Welfare. The system will allow simultaneous captioning of live TV shows based on automatic computer translation of stenographic records to English text. These, in turn, will be fed to the "closed-caption" broadcasting system.

Miss Cynthia Saltzman, a Gally graduate, will handle audience testing at various test facilities.

D.C. WHEELCHAIR BASKETBALL GAME

On Sunday, February 5, Parents for Deafpride will sponsor a D.C. Wheelchair Basketball Game. The game will be held in the Gallaudet Gym at 2:00 p.m. Donations for admission are: \$3.00 Adults, \$2.00 Students 12 and over, \$1.00 Children under 12. For more information and tickets call James & Ann Wilson, 562-9143 (Voice & TTY).

1977-78 COMBINED FEDERAL CAMPAIGN

The final reports have been sent into the Combined Federal Campaign Headquarters for the 1977-78 campaign, and we have exceeded our goal of \$10,700. In this campaign we had 191 contributions which totaled \$11,223.50 (the largest amount ever raised on campus). Of the total contributions, \$2,187.50 was given in cash and the remaining \$9,036.00 was through payroll deductions. The average overall contribution was \$58.76. Thanks to all who helped make this a successful campaign.

ADDITIONAL INFORMATION

Last week I published an article on the Associate of Arts Degree in Interpreting. The date for submitting application forms for this program has now been extended to May 1, 1978. All interested persons are encouraged to submit their applications to

the admissions Office. For further information contact Lottie Riekehof, x837.

ENERGY CONSERVATION FROM JAMES HULL

"Conservation of energy is more than just turning off lights and adjusting thermostats. It means constant attention to the little things often forgotten during the day, like making sure windows and doors are closed when leaving. For an example, forgotten open windows and doors during the recent cold spell permitted enough cold into one of the rooms to freeze and burst a radiator.

"Your attention to closing doors and windows both in heating and cooling seasons will be greatly appreciated. You will be providing that little extra effort that helps the Physical Plant help you."

DANCE SCHEDULE ANNOUNCED

The Student Union will be presenting six dance concerts this semester and one additional concert during the summer. All programs will take place at 3:00 on weekday afternoons. A flyer with the names and descriptions of the companies will be distributed shortly. For further information contact Deborah Shaine, x757 (TTY) or 741 (V).
